

# B-Act<sup>®</sup> Buzz

B-Act<sup>®</sup> Buzz

Product characteristics	
Name	B-Act <sup>®</sup> Buzz
Description	B-Act <sup>®</sup> Buzz is a complementary feed. B-Act <sup>®</sup> Buzz protects the gastro intestinal tract by targeting unfavorable micro-organisms, stimulating a healthy balance of gut microbes and thereby improving weight gain and feed conversion efficiency.
Origin	Single non-pathogenic strain <i>Bacillus licheniformis</i> BL 11 (DSM 28710) isolated from the soil
Minimum concentration	1.6 x 10 <sup>12</sup> CFU <i>Bacillus licheniformis</i> /tablet B-Act <sup>®</sup> Buzz
Composition	<i>Bacillus licheniformis</i> DSM 28710 spores, dextrose, sodium (bi)carbonate, citric acid
Target Species	Chickens for fattening and reared for laying, turkeys for fattening and reared for breeding, minor poultry species for fattening and reared for laying
Recommended dosage	One B-Act <sup>®</sup> Buzz tablet (50 grams) per 10.000 turkeys or 20.000 birds of other registered species, administered daily via the drinking water for a minimum of 7 days.
Mode of administration	Orally, incorporated in the drinking water. Prepare stock solution by adding 1 tablet of 50 g per 20 litres of drinking water. Wait until fully dissolved (15 min), stir and use. Stock solution may be used for up to 2 days, if stored correctly and stirred before use.

Physical properties	
Weight per tablet	50 grams
Effervescent time	±15 minutes
Colour and appearance	Beige to light brown, round tablet
Solubility	Dispersible in water

Handling	
Storage conditions	Cool (< 25°C) and dry place
Shelf life	24 months after production date
Packaging	Twenty tablets of 50 g each, individually packed and presented in one carton box, 1 kg net
Safety	For user safety, wear breathing protection and safety glasses during handling

Remarks	
Status	Non-GMO
